Remember, these are exclusive broadcasts so it is **critically important** that you clear space in your calendar and show up - *no matter what it takes!*

*Let's get to it...* **What I want to give you in this report is an initial “snapshot”** of the system I'm going to be revealing.

- It's something that you've likely never seen before...
- We've been experimenting with it for over 12 months using a group of beta-testers...

- The results our #1 beta-tester has produced have been utterly mind-blowing.

**In fact, our #1 Beta-Tester has used the system to generate frankly **astounding** online sales.**

*For instance...*

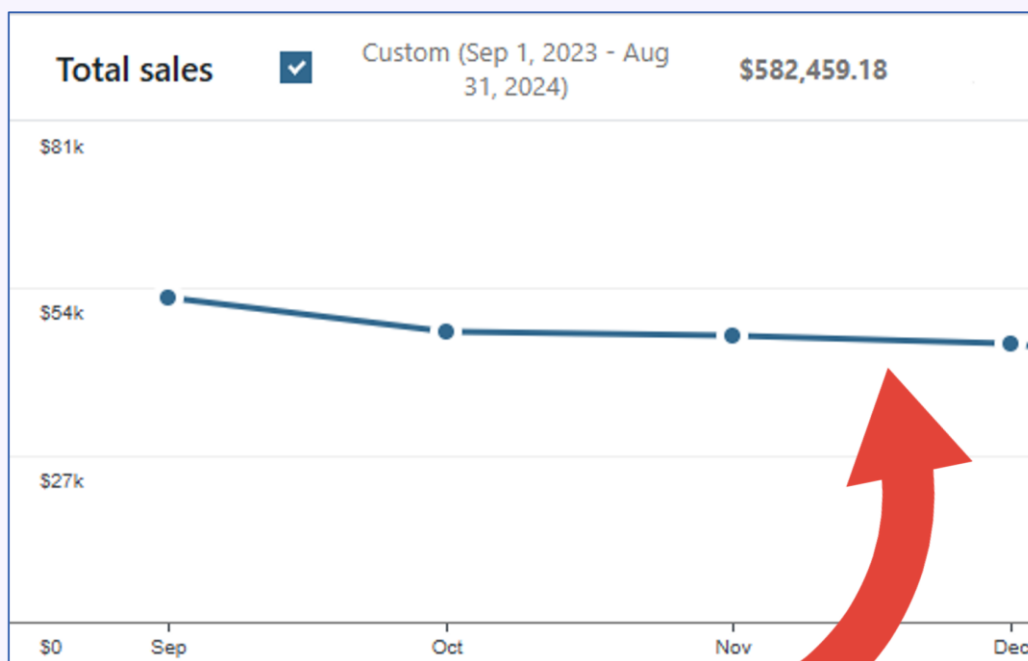

**\$4136** in a **single day (his best day)...**

**\$53,754** in just **1 month (his best month)...**

**...and \$582,459.18 total over a period of 12 months.**

**...all from just ONE “asset”.**

*Here's a screenshot...*

**\$582,459**

**In 12 months**

*...and from September 1<sup>st</sup> until the end of 2024, the sales were just shy of \$100,000!*

*Now, there are a couple of important things to say about this...*

**Firstly**, \$582,459.18 over 12 months equates to **a daily sales average of \$1654.71**. It's important to talk about averages and consistency ... *not just the "best days"*.

**Secondly**, we are showing you the above to demonstrate that this system works. We can't and won't guarantee that you'll achieve similar results as this.

We don't know you, your work ethic or your background - and therefore it's important to say that your own results (assuming you want to take this journey with us!) will vary.

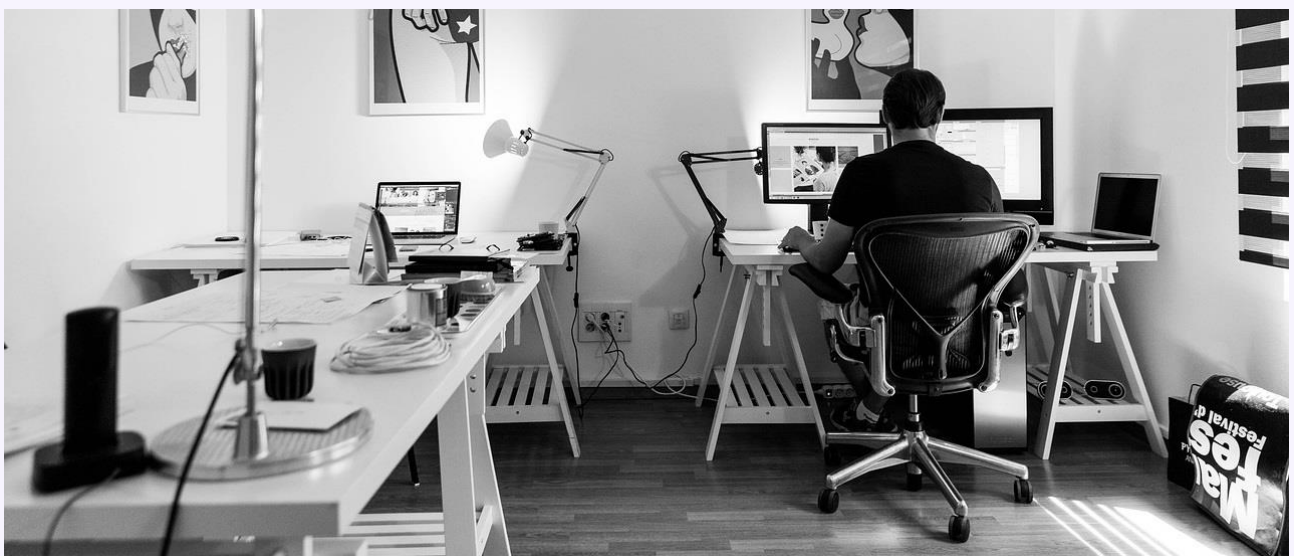

*But let me tell you one thing...*

After doing **\$24 million dollars in revenue from our own ventures in the past 5 years alone**, (meaning we have A LOT of experience running online businesses) ...we're CONVINCED that this might be one of THE best ways to generate income that we've EVER seen.

*So, let's cut to the chase...*

*To give you an idea right up front, essentially what I'm talking about here is...*

**The BEST WAY we know of to build a brand-new online income-stream working from home.**

- ✓ It has nothing to do with Amazon, inventory investment, product development, affiliate marketing, crypto currency or any of the usual “models”.
- ✓ There is a **crystal-clear path** for generating traffic that’s virtually headache free.
- ✓ It’s a streamlined, **lower-stress** system that is also newbie-friendly.

...and it is modelled on **an ingenious selling system** that that we stumbled across a few years back in Tokyo, Japan.

I'll explain more about the origins story on your session – *it is SUPER interesting.*

But for the purposes of this report, I'll stick to outlining the system itself.

Ok - Just before I dive into more detail, let me give you...

## A very **brief background** **about me.**

My name is Aidan Booth. I began my online journey in 2005 with the idea of building a small income stream that would allow me to be independent.

I knew that I'd never be able to be completely free if I was tied down to a day job in my native New Zealand, so I set about finding a way to make more money.

**To cut a long story short, within a couple of years I had managed to build a consistent online income of more than twenty thousand dollars a month...**

...and as a result, I became officially free to live anywhere in the world.

I was able to quit my day-job and got a one-way ticket to Argentina (which is where I still live).

*That is where it all started.*

Since then, my internet business has grown by leaps and bounds...

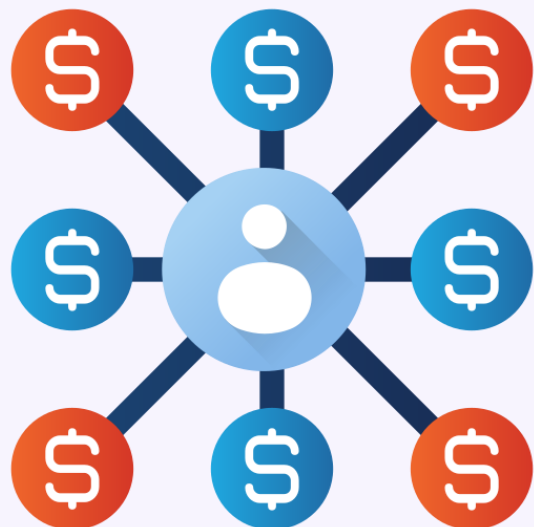

I currently have multiple ventures and a team of over 100 people who are based in the USA, the UK, Canada, Australia, Ireland, Argentina and many other countries too.

Ok - Now that you know who *I am*...

## Let's find out more about YOU.

I can pretty much assume that since you began looking to the internet as a way to make some extra income, **you've tried one of the following models to build an online business...**

- *Affiliate Marketing...*
- *Selling products on Shopify stores...*
- *Selling private label products on Amazon...*
- *Creating Info products...*
- *Search Engine Marketing...*
- *Crypto...*
- *Kindle...*

*...and maybe you've tried others too.*

Of course, maybe you've had success, (and I sincerely hope you have)...

...but what I CAN assume is the reason you've pursued one or more of these models is because the products, courses and people you've been following have been telling you to do so.

## Now let me just clarify something important...

There's **absolutely nothing wrong** with any of the business models I mentioned above...

In fact, my team and I do very well with them too as you can see by the following screenshot from one of our product seller accounts...

\*\*Our Company is a professional internet marketing business with years of experience. The revenue figures illustrated here are not intended to guarantee results. Your own results will vary.

But while the business models I mentioned above *can produce large amounts of revenue*, some of them are **notoriously difficult to implement**, financially risky and can take many months to materialize into ACTUAL profit.

This "months to materialize into money" factor is a **REALLY KEY POINT** for one VERY important reason...

**"Failure to see results fast" is THE biggest reason why people throw in the towel...**

...and it regrettably means that many people never get anywhere.

*Has this happened to you?*

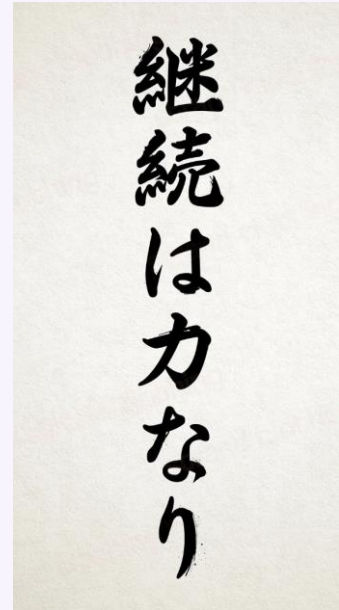

*Have you failed or given up before?*

If you have, then obviously it will have hurt (and maybe still does!)... but the only way forward is to ignore the past, forget about previous failures, and focus on the future.

That's how every successful online entrepreneur thinks (without exception)... and **it's how you should be thinking too.**

*There's an old Japanese business saying...*

# Keizoku wa chikara nari ( 継続は力なり )

It means:

***"Perseverance is Power"***

This saying emphasizes the value of unstoppable effort and determination, meaning that victory only comes to those who DON'T GIVE UP.

*In other words...*

**Perseverance is a DEFINING FACTOR of success.**

*...and this is especially true when it comes to building an online business.*

The good news is that after spending nearly 15 years teaching people how to build these types of businesses, **I've discovered two important things...**

1. **You DON'T have to be ultra-smart, articulate** and super-confident to be successful.
2. **Neither do you need to work 24 hours a day** or throw yourself into things you don't like or are uncomfortable doing...

In fact, being successful can become MUCH simpler if you pursue a path that is...

- **Fun, rewarding and enjoyable.**
- Which you can run in your own time, from home, **with no boss telling you what to do.**

**And this is exactly WHY you MUST attend your private broadcast!**

What I'm going to reveal **ticks ALL the above boxes.**

*It's something you've likely never seen before...*

*It breaks many of the traditional "rules" for creating income online*

And it revolves around what I believe to be...

**The KEY SECRET to building a successful online income-stream working from home:**

**SIMPLICITY**

*Let me ask you something...*

Have you ever seen the TV program *Shark Tank*? - Where people pitch to a group of millionaire (and billionaire) investors, in the hope of securing funds to help their business grow.

Well, many of the businesses you see on this show are what I like to call “**Hero businesses**”.

In other words, businesses which “go big” by attempting to establish a new market, create new innovative products, change the world, or reinvent the wheel in such a way that it requires *a massive amount of time and investment to pull off*.

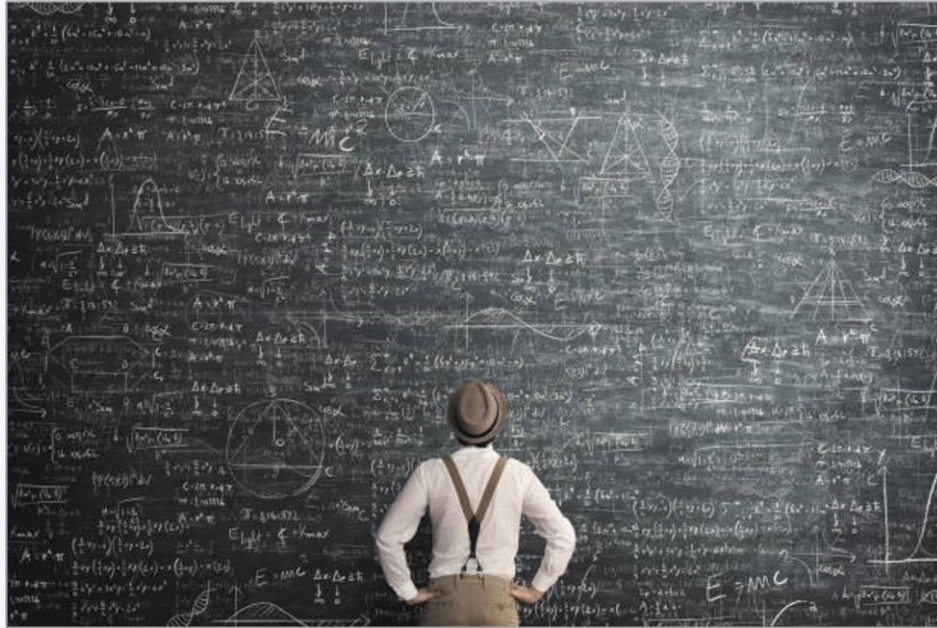

Of course, there’s nothing wrong with going big - and more power to the entrepreneurs who are willing to jump in the deep end and take massive amounts of risk.

**However, here lies the PROBLEM...**

More often than not, these people pour their life savings into a business, have their homes on the line and have borrowed a fortune from friends, family and outside investors - **yet are still nowhere near making an actual PROFIT**.

This is usually because of ONE KEY ISSUE

**What they are doing is TOO COMPLICATED!**

The LAST THING you want to be doing is making a million dollars in annual revenue but NOT making a profit of any significance. (or worse -- LOSING money)...

...ESPECIALLY if a business is a nightmare to run.

So... *based on that, here's an interesting question for you...*

**If you were able to choose [an online business](#),  
which one of these two options would you  
*pursue?***

# OPTION 1:

## A “Large Complicated” business

- With staff and overheads...
- Taking up at least 12 hours each day + weekends...
- With lots of stress & pressure...
- With fluctuating profits...
- (And sometimes losing money)...
- With constant calls and customer communication.

*or...*

# OPTION 2:

## A Lower-Stress Online Income-Stream

- Which you could run from home...
- Giving you the ability to see family, friends more often and have increased time to focus on other areas of your life...
- And with no need to talk to anyone, ever...

I don't know about you, but I would choose the latter (option 2) **EVERY TIME** -- *especially* if I was just starting out.

If you agree, this is GREAT NEWS, because...

**Building a Lower Stress Online Income-Stream working from home is EXACTLY what I'm going to reveal how to do on the broadcast!**

*Do you want to know the best thing?*

With the system I'm going to show you, all the "usual stuff" you usually need to think about is **thrown completely out of the window**...

*In other words, you DON'T need:*

- X An Amazon seller account
- X A product of your own
- X Social Media accounts
- X Any technical knowledge
- X Large Inventory orders
- X High-risk investment
- X Crypto accounts
- X Content creation
- X Any web design skills

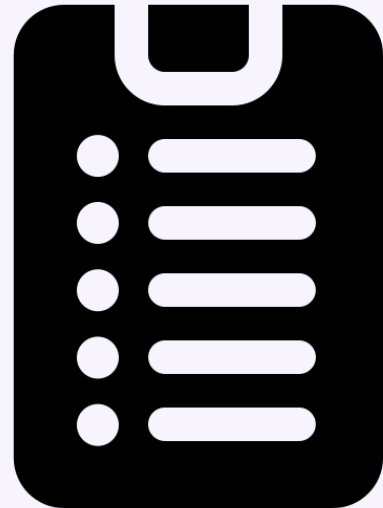

...and because the above are eliminated, it means that using this system to build a brand-new online income-stream working from home **is made a lot less complicated.**

## But how is this **DIFFERENT** Exactly?

Well, first let me tell you the issue with most business models by running through a few "standard practices"...

- The first thing you usually do when you start an online business is start by choosing a market or niche.
- You then need to think about what product or service you are going to create, sell or promote within that market or niche.
- Then you need to build a complicated website, find suppliers, think about brand names, create your product(s), get all your sales material created, make large inventory orders (if you are selling physical products)
- Then you need a way to generate targeted TRAFFIC, which as I'm sure you know can be difficult at the best of times.

Of course, there is nothing wrong with these practices - with most business models it's simply a necessity.

However, the issue is...

**It can often take MONTHS to get anywhere!**

*Not only that*, once you have chosen a niche, got your domain name, set up your site and have started creating your products or services (whatever they may be), **you can find yourself at a point of no return.**

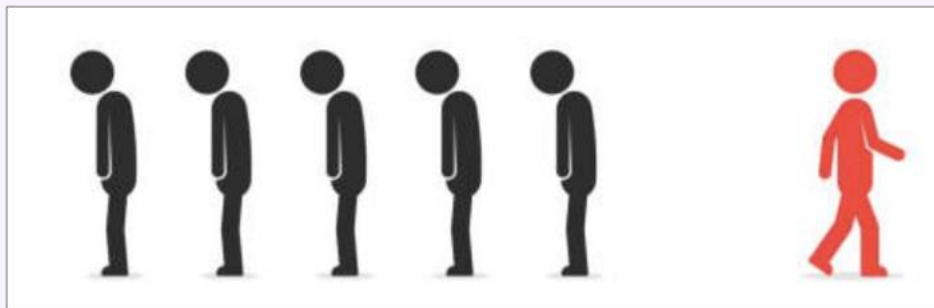

In other words, you simply need to hope and pray that all the time, work and money you are putting in will eventually amount to something.

Sadly, though, it often doesn't.

...And to top it all off, if you do manage to get up and running successfully, you **then need to compete with hundreds, even thousands of other people** who are all doing the exact same thing!

Well, here's the good news...

**What we are doing is THE POLAR OPPOSITE...**

Like I mentioned previously, the model is based on a selling system that we discovered in Japan.

...and our “**Codename**” for it is:

# OMEGA オメガ

*The reason why we have this codename is because...*

**OMEGA** = The ultimate... the greatest  
version something...

...and this is EXACTLY what we're talking about!

*The best thing about the system is that...*

**The Process Only Involves 4 “Core Steps”**

*To give you an idea, on the next page you can see a “left to right” visual to give you a top-level overview showing you how this works...*

I'll give you a full run down of the 4 steps during your broadcast session, *but to give you an idea...*

INSTEAD of going through the standard practices that I mentioned earlier...

- We ignore markets and niches...
- We never invest in any upfront inventory...
- We promote random weird-looking “artifacts” that you would never expect to sell online.

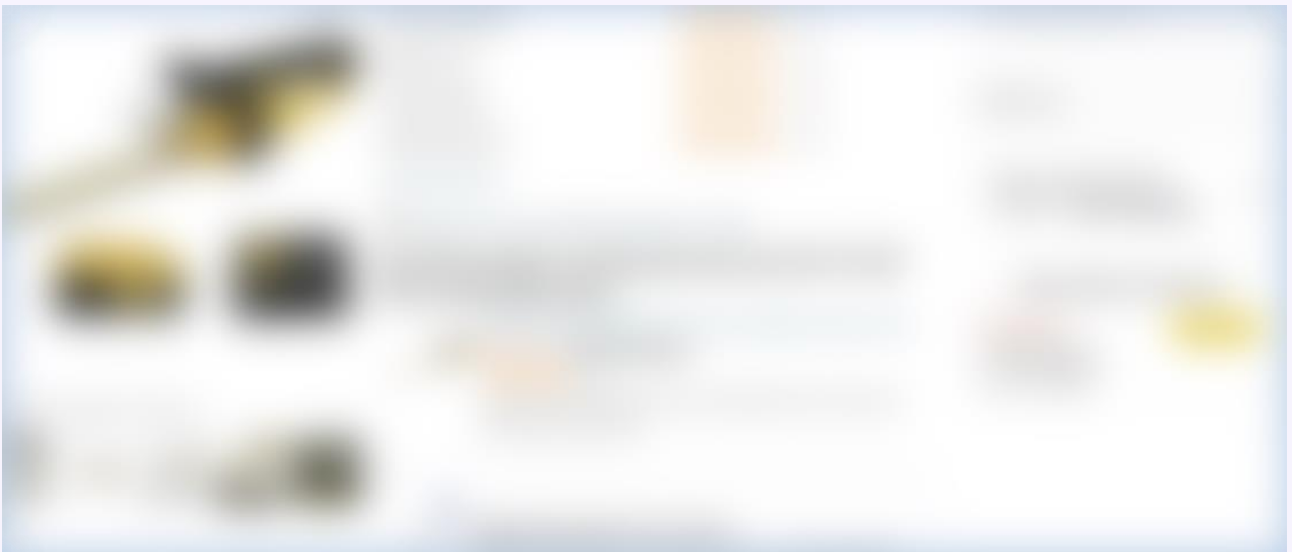

- We use a crystal-clear path for generating targeted traffic that's virtually headache-free.
- We generate sales...
- And then we SCALE UP.

And we do ALL OF THIS using **brand-new Vulcan™ technology** we've developed that makes running the system lightning fast.

Again, you'll need to attend your private session to unlock what **Vulcan™ technology** is and how it works....

...but what I *can* tell you is that it is **SUPER-POWERFUL**, a complete **GAME-CHANGER** and makes the entire system far simpler to run with.

*Listen, I can assure you one thing...*

You are going to be completely **BLOWN AWAY** by  
what I have in store for you.

We are 100% focused on sticking to proven fundamentals and showing you a **simpler path**.

*In other words...*

- A way to build a new income-stream working from home
- That's easy to start, lower stress and which also allows you more free time.
- No staff, overheads or risky investments.
- Something that could make a **DIFFERENCE** in your life.
- Something that you could scale into a fully-fledged business.
- With a focus on **\*SIMPLICITY\*** in order to improve the chances of getting RESULTS!

Like I mentioned at the start, you have taken the first step by registering for one of the broadcasts.

**That's great.**

But now you need to do everything possible to **SHOW UP**.

When you do, I will unlock EVERYTHING and reveal...
